BOLDNESS AND HARMONY COMBINED

o o o o

NOVA is a mature series of storage furniture that will add that little extra to your living and dining rooms. The NOVA collection is matte lacquered which perfectly suites the toned-down colours. The colour range gives you the opportunity to choose if you want to be bold or harmonious in your home interior. The chrome handles and legs are eye-catching contrasts to the matte lacquers and deep colours. NOVA gets its character from the rounded soft corners and the nicely shaped pattern underneath the handles. Functional and charming but not ordinary, a contemporary designer collection for the innovative ones.

Made in Sweden

The technical knowledge and sense of design from Tenzo pursued the development all the way from idea to production. The creation process of NOVA is genuine and precise. All coloured parts are painted in our own factory with the latest technology. After the painting process, all pieces of furniture are inspected and packed in our E-commerce approved packaging.

Soft-close

The hinges of NOVA are integrated with soft-close. The doors and drawers are both equipped with the soft self-closing function. The soft close catches the doors and drawers and makes it close slowly, silently and softly.

Details

The round tapered handles in metal and the nicely shaped pattern on the doors and drawers give the furniture character. The collection has soft corners with doors and drawers that extend over the body.
